It is an honor and privilege to endorse this brilliant ,elegant and generous lady. I first met her doing fund raising for her charity mission in the Philippines. I found how generous she is in helping people with out financial gain. She help most seniors to navigate their way through the system. Such filing up forms, and understanding benefits that are due them. I had the opportunity to join one of her missions her home town. This lady's dedication to service is so contagious that several of us volunteered our time at our own expense. She is also active at St. Patrick's church in Rodeo in the cursillo group. I have met people in this organization from different parishes in the Bay Area. They have high praises for Celsa having met her in the functions. I am fully confident that Celsa Taraya will be a great asset to the city of Hercules to serve as a dedicated hardworking counselor.
