ENGINEER'S REPORT

CITY OF HERCULES

LANDSCAPING AND LIGHTING ASSESSMENT DISTRICT No. 83-2

FISCAL YEAR 2017-18

The undersigned respectfully submits the enclosed Engineer's Report as directed by the City Council.

Dated: June 19, 2017

By 
Eduardo R. Espinoza, P.E.
RCE No. 40688

I HEREBY CERTIFY that the enclosed Engineer's Report, together with the Assessment Roll and Assessment Diagram thereto attached was filed with me on the _____ day of _____, 2017.

Lori Martin, City Clerk
City of Hercules
Contra Costa County, California

By _____

I HEREBY CERTIFY that the enclosed Engineer's Report, together with the Assessment Roll and Assessment Diagram, thereto attached, was approved and confirmed by the City Council of the City of Hercules, Contra Costa County, California, on the _____ day of _____, 2017.

Lori Martin, City Clerk
City of Hercules
Contra Costa County, California

By _____

SECTION 1

INTRODUCTION

Background Information

City of Hercules Landscaping and Lighting Assessment District No. 83-2 (the “District”) was initiated in 1983 and confirmed by the City Council on January 5, 1984, pursuant to the provisions of the Landscaping and Lighting Act of 1972 (the “1972 Act”).

On November 5, 1996, California voters approved Proposition 218, entitled “Right to Vote on Taxes Act”, which added Articles XIIC and XIID to the California Constitution. This newly enacted Proposition established new procedural requirements for the formation and administration of assessment districts.

In 1997 the assessment district methodology was revised to conform to the requirements of Article XIID and the District was then subsequently confirmed by a District-wide ballot proceeding in June of 1997 whereupon a majority of ballots weighted in proportion to their financial obligation were cast in favor of modifying and continuing the assessment district. The June 1997 Ballot authorized the City Council to levy and annually increase the assessments by an amount not to exceed the annual increase in the Consumers Price Index through the end of FY 2002-03.

In 2003 the district was confirmed by a District-wide ballot proceeding in July of 2003 whereupon a majority of ballots weighted in proportion to their financial obligation were cast in favor of continuing the assessment district. The July 2003 Ballot authorized the City Council to levy and to annually increase the assessments by an amount not to exceed the annual increase in the Consumers Price Index through the end of FY 2013-14.

The City subsequently created Landscaping and Lighting Assessment Districts No. 2002-1 (Hercules Village), 2002-2 (Victoria by the Bay), 2004-1 (Baywood) and 2005-1 (Bayside). The properties within these districts were removed from Assessment District No. 83-2, however they continue to be assessed their proportionate share of the Zone 10 citywide costs within those districts, which is discussed in Part D of this Engineer’s Report (“Report”).

In 2010, the City held a Proposition 218 balloting to remove the 10-year sunset, authorize the District to continue in perpetuity and authorize the use of the CPI to annually adjust the assessment rates. In addition, there were adjustments made to the assessment methodology to address unanticipated changes in land use not considered under the prior methodology. In addition, a review of the benefits received by public properties was conducted and the methodology was revised to accurately reflect the benefits received by those parcels. A majority of ballots weighted in proportion to their financial obligation were cast in favor of making the changes to the assessment district.

Current Annual Administration

As required by the 1972 Act, this Report describes the improvements to be constructed, operated, maintained, and serviced by the District for FY 2017-18, provides an estimated budget for the District and lists the proposed assessments to be levied upon each assessable lot or parcel within the District.

In FY 2017-18, the Hercules City Council proposed to increase the maximum annual assessment rates for parcels located within Benefit Zones Nos. 1, 3&4, 5C, 6, and certain areas of 7. The increase in the assessment rates required the City to conduct a Proposition 218 election. As a result, the City mailed notices and ballots to the affected property owners a minimum of 45 days prior to the Public Hearing set for June 13, 2017 when the proposed increase in assessments was to be discussed. At the June 13th Public Hearing, the City provided an opportunity for any interested person to provide testimony. After the public hearing input portion, the City Council asked if there were any remaining ballots to be turned in or if anyone would like to change their vote. The City Council then continued the Public Hearing to June 27, 2017 so that the ballots could be tabulated. If a majority of the ballots received within each Benefit Zone were in favor of the assessment increase, then the assessment increase could be imposed by the City Council for that Benefit Zone. The proposed assessment increase in Zone No. 5C was approved by the property owners. The proposed assessment increase in Zone Nos. 1, 3&4, 6, and certain areas of 7 were not approved by the property owners. The results of the ballot tabulating will be presented to the City Council at the continued Public Hearing on June 27, 2017. At the end of the Public Hearing, the City Council may adopt a resolution confirming the levy of assessments. Following the adoption of this resolution, the Final Assessor's Roll will be prepared and filed with the Contra Costa County Auditor's Office, to be included on the FY 2017-18 tax roll.

Payment of the assessment for each parcel will be made in the same manner and at the same time as payments are made for property taxes. All funds collected through the assessment must be placed in a special fund and can only be used for the purposes stated within this Report.

SECTION II

ENGINEER'S REPORT PREPARED PURSUANT TO THE PROVISIONS OF LANDSCAPING AND LIGHTING ACT OF 1972 SECTION 22500 THROUGH 22679 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE

CITY OF HERCULES LANDSCAPING AND LIGHTING ASSESSMENT DISTRICT No. 83-2

FISCAL YEAR 2017-18

Pursuant to the Landscaping and Lighting Act of 1972 (Part 2 Division 15 of the Streets and Highways Code of the State of California, commencing with Section 22500), and in accordance with the Resolution of Intention, being Resolution No. 17-022 adopted by the City Council of the City of Hercules on April 11, 2017, I, Eduardo R. Espinoza, the duly appointed Engineer of Work, Assessment Engineer for the City of Hercules Landscaping and Lighting Assessment District No. 83-2 (the "District") submit the following Report, consisting of Section I (Introduction), and this, Section II, which consists of five (5) parts as follows:

PART A: PLANS AND SPECIFICATIONS

This part describes the improvements maintained by the District. Plans and specifications for the improvements are on file in the Office of the Director of Public Works of the City of Hercules, and are incorporated herein by reference.

PART B: ESTIMATE OF COST

This part contains an estimate of the cost of the proposed improvements to be maintained for FY 2017-18, including incidental costs and expenses in connection therewith. The estimate is attached hereto, and is on file in the Office of the Director of Public Works of the City of Hercules.

PART C: ASSESSMENT DISTRICT DIAGRAM

This part incorporates a Diagram of the District showing the exterior boundaries of the District, the boundaries of any zones within the District and the lines and dimensions of each lot or parcel of land within the District. This Diagram has been prepared by the Engineer of Work and is on file in the Office of the Director of Public Works of the City of Hercules.

The lines and dimension of each lot or parcel within the District are those lines and dimensions shown on the maps of the Contra Costa County Assessor for the year when this Report was prepared. The Assessor's maps and records are incorporated by reference herein and made a part of this Report.

PART D: METHOD OF APPORTIONMENT OF ASSESSMENTS

This part describes the method of apportionment of assessments, based upon each parcel's land use classification within the District in proportion to the estimated special benefits to be received.

PART E: PROPERTY OWNER LIST & ASSESSMENT ROLL

This part contains a list of the Contra Costa County Assessor's Parcel numbers, and the amount to be assessed upon the benefited lands within the District. The Assessment Roll is filed in the Office of the City Clerk of the City of Hercules and is incorporated in this Report. The list is keyed to the records of the Contra Costa County Assessor, which are incorporated herein by reference.

PART A

PLANS AND SPECIFICATIONS

The facilities that have been constructed within the District boundaries, and those which may be subsequently constructed, will be operated, maintained and serviced as generally described and defined below:

Neighborhood Zones (1 through 9)

Street lighting maintenance, landscape maintenance, Railroad Park and Beechnut Park maintenance, weed control and planted median and slope maintenance, backflow prevention system inspection, irrigation water expense, unscheduled landscape work, graffiti abatement, weed abatement, and miscellaneous open space cleanup. Other improvement expenses include supplies, incidentals, and administration costs. Each neighborhood zone also pays for its pro-rata share of Citywide Arterial Roadway landscape and lighting maintenance.

There is wide variation in the type and level of street lighting and street landscaping improvements within the commercial areas of the City. Subzone 5A (Northshore Business Park) and Subzone 5B (Creekside Shopping Center, Sycamore, Willow Ave North) have fully developed commercial parkways with curbs, gutters, electroliers, street trees and landscaped medians.

District-Wide Parks (Zone 10)

The locations where City-wide services are provided include; Woodfield Park, Ohlone Park, Refugio Valley Park, Refugio Valley Linear Park, Refugio Valley Tennis Courts, Hanna Ranch Park, Shoreline Park, Oval Park, Duck Pond Park, Foxboro Park, Community Swim Center, Senior and Civic Centers, Historic Clubhouse, wetland preservation areas. The services performed at these locations include lawn, shrub, tree and ground cover care, open space mowing, debris removal from creek areas, backflow prevention system inspection, janitorial services, street lighting, irrigation water expense, unscheduled landscape work, graffiti abatement, weed abatement, miscellaneous open space cleanup. Other improvement expenses include contract services, park and landscape supplies, vehicle expense/replacement charge, and incidental, engineering and administration costs.

A portion of the maintenance costs of city parks, recreation facilities, open space, lighting, and landscaping improvements at the various locations listed above is of special benefit to all the residential property within the District.

CONCEPTUAL PLANS

Conceptual plans, which list the services to be performed within each zone, respectively are on file in the Office of the Director of Public Works and are included herein by reference.

SPECIFICATIONS

The specifications for the various maintenance services performed are included in the document entitled "Level of Service Summary by Zone." This document is on file in the Office of the Director of Public Works and is included herein by reference.

Improvements means one or any combination of the following: the installation or planting of landscaping, the installation or construction of statuary, fountains, and other ornamental structures and facilities; the installation or construction of public lighting facilities; the installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities; the maintenance or servicing, or both, of any of the foregoing; the acquisition of any existing improvement otherwise authorized pursuant to this section.

Maintenance means the furnishing of services and materials for the ordinary and usual operations, maintenance and servicing of the landscaping, street lighting, public park and recreational facilities and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping, street lighting, public park and recreational facilities or appurtenant facilities; providing for the life, growth, health and beauty of the landscaping, including cultivation, irrigation, trimming, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water for the irrigation of the landscaping and the maintenance of any street lighting facilities or appurtenant facilities and the furnishing of electric current or energy, gas or other illuminating agent for the street lighting, public park and recreational facilities or appurtenant facilities.

Incidental expenses associated with the improvements including, but not limited to: the cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment; the costs of printing, advertising, and the publishing, posting and mailing of notices; compensation payable to the County for collection of assessments; compensation of any engineer or attorney employed to render services; any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements; any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5; costs associated with any elections held for the approval of a new or increased assessment.

PART B

ESTIMATE OF COST

The 1972 Act provides that the total cost of installation, construction, operation, maintenance and servicing of landscaping, street lighting and park and recreational facilities can be recovered by the District. Maintenance can include the repair and replacement of existing facilities, including graffiti removal. Servicing can include electrical and associated costs from a public utility. Incidental expenses, including administration of the District, engineering fees, legal fees, printing, posting and mailing of notices and all other costs associated with the annual collection process can also be included.

The 1972 Act requires that a special fund be set up for the revenues and expenditures of the District. Funds raised by the assessments shall be used only for the purpose as stated herein. A contribution by the City of Hercules may be made to reduce assessments, as the City Council deems appropriate. Any balance remaining on July 1 must be carried over to the next fiscal year unless the funds are being accumulated for future capital improvements and operating reserves.

The operation, maintenance and servicing costs for FY 2017-18 are summarized on the following page. These cost estimates were provided by the City of Hercules.

PART C

ASSESSMENT DISTRICT DIAGRAM

The boundaries of the Landscaping and Lighting Assessment District No. 83-2 are as shown on the following page and exclude the areas contained in City of Hercules Landscaping and Lighting Assessment Districts No. 2002-1, 2002-2, 2004-1 and 2005-1. The lines and dimensions of each parcel within the District are those lines and dimensions shown on the maps of the Contra Costa County Assessor for the year in which this Report was prepared and are incorporated by reference herein and made part of this Report.

A reduced copy of the Assessment Diagram is shown on the following page.

CITY OF HERCULES LANDSCAPING & LIGHTING DISTRICT ASSESSMENT DIAGRAM LLAD 83-2

PREPARED BY FRANCISCO & ASSOCIATES, INC

PART D

METHOD OF APPORTIONMENT OF ASSESSMENT

INTRODUCTION

Part 2 of Division 15 of the Streets and Highways Code, the Landscaping and Lighting Act of 1972, permits the establishment of assessment districts by Agencies for the purpose of providing certain public improvements, which include the operation, maintenance and servicing of landscaping, street lighting and park and recreational facilities.

Section 22573 of the Landscaping and Lighting Act of 1972 requires that maintenance assessments must be levied according to special benefit, rather than according to assessed value. This Section states:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefit to be received by each such lot or parcel from the improvements.

The determination of whether a lot or parcel will benefit from the improvements shall be made pursuant to the Improvement Act of 1911 (Division 7 (commencing with Section 5000)) [of the Streets and Highways Code, State of California].”

Because assessments are levied on the basis of special benefit, they are not considered a tax, and therefore, are not governed by Article XIII A of the California Constitution.

The Act permits the designation of zones of benefit within any individual assessment district if “by reason of variations in the nature, location, and extent of the improvements, the various areas will receive different degrees of benefit from the improvements” (Sec. 22574).

Article XIII D provided that publicly owned properties must be assessed unless there is clear and convincing evidence that those properties receive no special benefit from the assessment. Exempted from the assessment would be the areas of public streets, public avenues, public lanes, public roads, public drives, public courts, public alleys, public easements and rights-of-ways, public greenbelts and public parkways, and that portion of public property that is not developed and used for business purposes similar to private residential, commercial, industrial and institutional activities.

GENERAL BENEFIT

Under Article XIII D of the State Constitution (Proposition 218) general benefit is not assessable to the property owners within the assessment district. The different various types of general benefit associated with this district are described below:

Neighborhood Improvements (Zones 1 through 9): It is anticipated that there will be minimal flow through traffic within the in-tract neighborhood streets associated with Zones 1 through 9. However, there is a possibility for pedestrians and vehicles to access a destination outside of the development through the in-tract streets and therefore the in-tract street lighting and landscape improvements provide a minimal general benefit to the public-at-large or to the parcels outside of each neighborhood Zone. Based on the industry standard for comparable neighborhoods, 2% of the annual cost to operate and maintain the in-tract street lighting and landscape improvements is considered to be general benefit.

Arterial/Major Roadway Landscape and Lighting Maintenance: The arterial/major roadways allow residents to easily access all areas of the City and provide a clear benefit to all properties in the City. Therefore, landscape and lighting maintenance costs associated with the arterial/major roads are spread proportionately to all parcels in the City. The roads that fall into this category are John Muir Parkway, San Pablo Avenue, Refugio Valley Road, Sycamore Avenue, and Willow Avenue. Although these roads are mostly utilized by people coming to and from Hercules, there is some general benefit that can be attributed to flow through traffic generated from properties outside of City limits. Based on an initial circulation analysis, it is estimated that an average of 6% of traffic on these roads can be attributed to flow through traffic. The City will conduct a study to better estimate the percentage of flow through traffic.

District-Wide Parks (Zone 10): General benefit includes the use of park and recreation facilities by visitors located outside the City of Hercules. The term “visitors” as discussed in this paragraph does not include persons visiting or socializing with friends or relatives who live or own property in the City of Hercules. In this case, the benefit accrues to the property owner or resident that is hosting the visitors and is therefore assessable. Detailed statistics indicating the percentage of non-residents, who are not guests of City residents that frequent City park and recreational facilities do not exist. Based on park information from events and registrations, the City estimates that the percentage of use of City facilities by non-residents is less than 5%. Therefore, utilizing 5% for general benefit seems to be a conservative number. Therefore, 5% of the direct costs shall be made from the General or other fund, which would meet the spirit of Proposition 218. The City may undertake special studies in the future if necessary to better estimate the percentage of use of City parks by non-residents.

SPECIAL BENEFIT

Street lighting, landscaping, and park and recreational facility maintenance is a special and important benefit to the parcels within the District.

Street Lighting: Street lighting is critical for public safety. Well-maintained street lighting provides security to the adjacent properties by deterring crime and allowing Hercules police the ability to identify and control suspicious and criminal activity. It allows for safe pedestrian and vehicular traffic flow and circulation by improving the ability of pedestrians and motorists to see and to enter and exit property, which helps reduce night time accidents resulting in lower police, fire and paramedic costs to the

City and its residents. Street Lighting also increases the promotion of business during nighttime hours in the case of commercial property.

Landscaped Streetscapes and Roadway Medians: The District keeps the City's landscaped streetscapes and roadway medians well-groomed and irrigated which enhances property values throughout the City. These services include, landscape maintenance, plant replacement, irrigation, tree pruning, and litter control. Some of the special benefits properties receive from well-maintained landscaping include:

- The aesthetic value of green space;
- Improved aesthetic appeal of nearby parcels;
- Enhanced adaptation of the urban environment within the natural environment;
- Improved erosion control;
- Improved dust and debris control;
- Reduced air pollution;
- Enhanced sense of pride within the development and community.

Parks and Recreational Facilities: The District provides landscape and recreational facility maintenance at 14 Hercules public parks throughout the City which enhances property values throughout the City. These services include, landscape maintenance, playground equipment cleaning and replacement, irrigation, tree pruning, plant replacement and litter control.

Open Space Cleanup and Graffiti Abatement

Miscellaneous improvements such as the removal of litter, debris, and graffiti are of special benefit to each property within the District.

The special benefits received by these may best be evaluated in terms of the property devaluation that would occur if the District maintenance activities were suspended or terminated. The resultant reduction in the quality of life could be significant. In contrast to the current conditions, one could find streets without lights, parks parched from lack of water, hillsides littered with debris, unkempt community facilities with graffiti and traffic medians overtaken by weeds. The resulting loss to property in terms of the desirability of the City of Hercules as a place to live and work would be obvious. Clearly the continuation of the City's maintenance effort is of special benefit to each property owner within the District.

The City's maintenance effort, referred to as the "improvements", is divided into two distinct categories, Neighborhood and Arterial/Major Roadway Improvements and District-wide Parks (Zone 10) Improvements. These categories of improvements are described as follows:

1. Neighborhood and Arterial/Major Roadway Improvements (Zones 1 thru 9)

a. Street Lighting and Landscape Maintenance

Most of the street lights and nearly all the landscaping improvements along City streets that are maintained by District funds were installed as a condition of approval of the various developments that make up the neighborhood zones. The benefits received from

these improvements are easily identified with the individual properties within the respective zones. Zones of benefit have been established around certain geographic areas to define the benefit received from the improvements. For example, the highway marks the boundary of several zones within the City. The zone concept is a solid method of establishing special benefit and is suggested as an equitable means of distribution in the text of the Landscaping and Lighting Act of 1972.

Street lighting increases security for homeowners and improves the appearance of property frontage during the hours of darkness. Street lighting also improves safety for motorists and safety for pedestrians. Security and appearance are property benefits. Traffic and pedestrian safety are related to parcel use or occupancy. Increased levels of lighting are required for increased use.

Landscaping on public streets improves the appearance of private property. Landscaping not maintained will perish and the cost of replacement may be prohibitively expensive. Landscaping on public streets is therefore of benefit to property. Landscaping on public streets also improves the quality of life on a day-to-day basis. Increased use generally requires increased levels of service. Hence, as with street lighting benefits, landscaping benefits are seen to be proportionate to parcel size and to parcel use.

b. Neighborhood Park and Recreation Facility Maintenance

Neighborhood parks are of special benefit to the properties within each zone. Neighborhood parks are designed to serve the immediate neighborhood parcels within the zone. The determination as to whether or not a park is of neighborhood or City-wide benefit is based upon the activities at the park. If structured City-wide events are conducted at a park, then it is attributed to citywide benefits as opposed to the localized or neighborhood benefits.

c. Weed Abatement, Open Space Cleanup and Graffiti Abatement

The benefit received by a parcel from weed abatement is essentially the same in spite of parcel size and location. Fires, once started, are known to "jump" across streets due to excessive weed growth and are of equal threat to all residences once ignited. No special consideration therefore has been given to parcels that back up to open space as opposed to those that do not. The benefits received from weed abatement are also related to the day-to-day use of the property in terms of the safety provided to residents. Even in the absence of damage to structures, green hills that are litter free and abundant with life are a significant improvement over unkempt open space.

Miscellaneous improvements such as the removal of litter, debris, and graffiti are of special benefit to the property within each neighborhood and are assessable to the zones in which the service is provided.

2. District-Wide Parks Improvements (Zone 10)

A portion of the maintenance costs of city parks, recreation facilities, open space, and lighting improvements associated with Zone 10 is of special benefit to all properties within the District.

These District-wide improvements improve the quality of life in the City of Hercules on a day-to-day basis. The facilities themselves represent major community investments. If these facilities are not maintained, landscaping could perish and recreational facilities could fall into disrepair. The cost to replace landscaping and recreational facilities could be staggering. The level of maintenance however depends on the day-to-day use of the improvements. Increased levels of maintenance are necessary for increased use. It is important to note that user benefit is measured in terms of the opportunity which the park or recreational facility provides to the user and not in terms of the actual use.

ASSESSMENT METHODOLOGY

The total operation, maintenance and servicing costs for the landscaping, street lighting and public park and recreational facilities are apportioned in accordance with the methodology stated herein. The method for spreading the costs to each parcel is based on an Equivalent Residential Unit (ERU) factor.

1. Detached Single-Family Residences

Approximately 64% of the residential parcels in the District are detached single-family residential (SFR) parcels. Although the individual parcel size, building square footage and population for each SFR parcel may vary from parcel to parcel it is reasonable to assume that the benefit received is approximately the same from the improvements. Even though a SFR may have more building square footage than another it does not necessarily mean that the larger home receives a greater benefit. Therefore one (1) SFR parcel shall be equal to one (1) ERU. Because the majority of parcels in the City of Hercules are SFR it is also reasonable to measure the relative benefits received by other residential land use in terms of that received by a detached SFR parcel.

2. Apartments and Condominiums

The special benefit received by Multi-family Residential (MFR) units, detached SFR units in Planned Unit Developments (PUD) and attached SFR units (condominiums) may be determined by comparing them to SFRs. Benefits per dwelling unit are observed to be greater for SFR units than for MFR units and condominiums. MFR units and condominiums receive decreased benefits per dwelling unit from the community park improvements in terms of property benefit because the number of units supporting the fixed improvements is larger than for SFR detached units. On the other hand, MFR units and condominiums receive increased usage benefits from District-wide parks and recreation facilities. The Urban Land Institute has established a series of land use intensity ratings, which indicate the smaller units require more public open space and recreational areas per unit than do SFR parcels.

In order to determine the net benefit received by a parcel we multiply factors representing lot area and lot use, respectively. Table 2 lists the total number of parcels and total lot area for each type of residential land use. Based on these totals, the average lot area per parcel for each type of land use has been calculated. The average lot area per parcel for each type of use has been divided by the average lot area for SFR parcels and labeled as the "Lot Area Factor."

Table 2 also lists the typical household size and average lot area per person for each type of residential land use. The population per unit is based upon the 2000 census for SFR units and statistical averages for apartments and condominiums. A “Lot Use Factor” has been calculated as the ratio of the average SFR lot area per person divided by the average lot area per person for other residential use. A “Net Factor” for each type of land use is calculated on Table 2 by multiplying the Lot Area Factor by the Lot Use Factor. The net factor approximates very closely the equivalent residential units (ERU) that have been assigned to the various types of land use in the past and the ERU for each type of residential land use remains unchanged from prior reports.

STUDY OF RESIDENTIAL LAND USE

TABLE 2

Land Use	SFR DETACHED	SFR DETACHED PUD	APARTMENT	ATTACHED PUD CONDO's, etc.
County Use Code	<u>11</u>	<u>19</u>	<u>28</u>	<u>29</u>
No. of Parcels	3,526	730	4	2,164
No. of Units	3,526	730	292	2,164
Lot Area	29,917,364	5,738,458	539,403	6,808,270
Lot Area per Unit	8,485	7,861	1,847	3,146
Population per Unit	3.0	3.0	2.0	2.3
Lot Area per Person	2,828	2,620	924	1,368
Lot Area Factor	1.00	0.93	0.21	0.37
Lot Use Factor	1.00	1.08	3.06	2.07
Net Factor	1.00	1.00	0.64	0.77
ERU	1.00	1.00	0.64	0.75

Notes:

ERU	Equivalent Residential Unit
SFR	Single Family Residential
PUD	Planned Unit Development
CONDO	Condominium

Lot Area Factor =	Lot Area per Unit / Lot Area per Unit for SFR
Lot Use Factor =	Lot Area per Person for SFR / Lot Area per Person
Net Factor =	Lot Area Factor x Lot Use Factor

The figures, which appear in Table 2, are averages so there will be fluctuations in lot area and population for parcels within each category. This fluctuation is considered to be of minimal consequence in determining the benefit. In the final analysis the foregoing computations validate the assumptions regarding the benefit received by residential units in Hercules, those being that a detached SFR benefits more than a condominium and a condominium benefits more than an apartment and that a reasonable estimate of the relative special benefits received by these residential units is 1.00/0.75/0.64, respectively. Therefore, each PUD unit will be assigned one (1.00) ERU, each condominium unit will be assigned 0.75 ERU, and each apartment complex will be assigned 0.64 ERU per apartment unit.

3. Commercial Property

The maintenance of street lighting and landscaping on commercial streets is of special benefit to the properties that access these streets.

In order to distribute the cost among the various parcels we look to the special benefits as they relate to parcel size and parcel use. There is a minimum level of service, which is necessary to sustain landscaping, and lighting improvements so that they will not be lost. On the other hand, increased levels of services such as more frequent mowing, weed control, graffiti abatement and debris removal are more closely related to the day-to-day use of the property. These increased services improve the quality and appearance of the commercial district on a day-to-day basis. It is estimated that the increased service would not be necessary if the property were not improved.

Parcel area is a good measure of the special benefit which a parcel receives from the fixed improvements and the minimum levels of maintenance that are necessary to sustain them. Parcel area is an indicator of the development which may take place on that parcel and the number of employees and patrons who will benefit from improved lighting, attractive landscaping, and the absence of litter and graffiti.

Use of a commercial property is measured in terms of whether or not a parcel has been improved (built upon) or not. If a structure exists then the parcel is perceived to benefit from user benefits afforded the parcel by landscaping and lighting improvements as well as the benefits to the underlying land.

In order to relate commercial property to other land uses, the acreage of the commercial property is converted to equivalent residential units (ERUs). The ERU rate is calculated by dividing one (1) acre, or 43,560 square feet by the average single family residential lot size (8,485 square feet). Therefore, the ERU rate for commercial property is **5.134 ERUs per acre** ($43,560 / 8,485 = 5.134$).

Commercial properties are not assessed for the cost to provide District-wide (Zone 10) services, as they are deemed not to benefit from these services.

4. Vacant (Unimproved) Land

This underlying benefit of parks and recreation facilities, public landscaping weed abatement and street lighting accrues to the land and relates to the permanent nature of certain improvements. The maintenance effort is of benefit to all land within the District. The minimum level of maintenance required to preserve street landscaping, lighting, park and recreation facilities in the District is estimated to be 25% of the required for build-out maintenance cost. Accordingly, the estimated benefit received by an unimproved parcel of land with in an approved development potential is 25% of that received by an improved parcel, equal in size. This assumes that unimproved land will have no use of the facilities.

Therefore, vacant (unimproved) land in a is assessed at 25% of the developed ERU rate for the property, or 0.25 ERU per SFR or PUD lot and 0.25 ERU per acre for multi-family residential parcels. Vacant (unimproved) commercial land is assessed **1.283 ERUs per acre** of land ($5.134 \text{ ERUs per acre} \times 25\% = 1.283 \text{ ERUs per acre}$).

5. Public Properties

Publicly held parcels of land receive benefit from some landscaping and lighting improvements and not from others. For example, public land that is committed to public use and cannot pass freely in the market place will not benefit from the appreciation in property value afforded private property by enhanced landscaping and lighting. Public property does benefit on the other hand from the benefits afforded the user of the property from landscaping and the safety and security provided to a parcel by street lighting.

Public properties function much the same as commercial properties in the community in that they provide a service. In so doing they employ people and attract patrons. In estimating the benefits received by a public parcel it makes sense to look at the benefits received by commercial parcels. Since public properties function as commercial properties, it is reasonable to assess them for a fair share of the cost to maintain the improvements in their respective neighborhood.

The special benefit received by public properties can be determined by estimating the number of equivalent residential units (ERUs) that the property comprises. In the discussion above, residential land equivalency was measured in terms of parcel size and parcel use. Therefore, improved public properties are assessed at **5.134 ERUs per acre**.

Vacant (unimproved) public properties that are not exempt from assessment are assessed 25% of the improved public property ERUs, **1.283 ERUs per acre**.

Parks and active open space may be seen to benefit from the safety provided to the land by street lighting but not from other user related services. In addition, active open space properties are similar to vacant (unimproved) parcels. Street lighting accounts for only 15% of the maintenance budget with the district. Therefore, parks are assessed at the improved public property ERU rate and then reduced to 15% for street lighting only equaling **0.770 ERUs per acre** ($5.134 \text{ ERUs per acre} \times 15\% = 0.770 \text{ ERUs per acre}$).

Active open space parcels are assigned ERUs at the vacant (unimproved) public property ERU rate and then reduced to 15% for street lighting only equaling **0.193 ERUs per acre** ($1.283 \text{ ERUs per acre} \times 15\% = 0.193 \text{ ERUs per acre}$).

Appendix A lists the public properties in Hercules, which receive special benefit from landscaping and lighting improvements, and which have been assessed for these benefits. ERUs for all properties are indicated.

6. Churches and Non-Profit Properties

Churches and property owned by not-for-profit organizations benefit from landscaping, lighting, park and recreation facilities. These properties are assessed based on the use of the property, i.e. residential or non-residential (commercial) use.

7. Exempt Parcels

Certain properties do not benefit from landscaping, lighting, park and recreational improvements and have not been assessed. City parks, recreational facilities and open space do not benefit from the Zone 10 features which are the subject of the assessment. These properties on the other hand may benefit from the neighborhood landscaping and lighting services provided in the neighborhoods in which they are located. Public streets and right of ways, passive open space, and sliver parcels with no development potential do not benefit from landscaping and lighting improvements or from park and recreation facilities. Railroad right of ways and pipeline easements or fee strips generally do not benefit. The assessments for the special benefits received by common areas in PUDs are included in the assessment for the residential units with which they are associated. Common areas themselves are not assessed.

CALCULATION OF ASSESSMENTS

The costs shown in Table 1 Part B, Estimate of Cost, for each Zone has been distributed among the various parcels of land within the assessment district in accordance with the rationale as described above. The annual assessment rate for each Zone is calculated by dividing the total costs plus the reserve collection by the total number of ERUs in each Zone to derive the assessment rate for the Zone. The assessment rate is then multiplied by each parcel's assigned ERUs to derive the annual assessment for that parcel in that Zone.

Assessments are listed in Appendix B. The maximum assessments in Zone No. 5C have been increased as approved by the property owners pursuant to the Proposition 218 election conducted for FY 2017-18. The maximum assessments in all other Zones are being increased by the increase in the CPI for FY 2017-18.

The total ERUs per zone and the applied assessment rates are shown in Table 1, Part B, Estimate of Cost.

REASSIGNMENT OF LAND USE DESIGNATIONS

Subsequent to the recordation of new parcel maps or final subdivision maps, all newly subdivided and newly developed parcels (based on building permits issued before March 1 of the previous Fiscal Year) shall be duly assigned to a land use category, and thereafter shall be assessed the appropriate assessment for that land use category.

ADJUSTMENT OF ASSESSMENTS

Any property owner who believes that the amount of their assessment is in error as a result of incorrect information being used to apply the foregoing method of spread, may file an appeal with the City Manager. Any such appeal is limited to correction of an assessment during the then current or, if before July 1, the upcoming fiscal year. Upon the filing of any such appeal, the City Manager shall promptly review the information provided by the property owner and if it is found that the assessment should be modified, the City Manager shall have the authority to make the appropriate changes in the assessment roll. If any such changes are approved after the

assessment roll has been filed with the County for collection, the City Manager is authorized to refund to the property owner the amount of any approved reduction.

CPI INCREASE

The City proposes to increase the assessment amounts to their maximum assessment levels indexed for inflation according the annual increase in the Consumer Price Index (CPI), San Francisco Bay Region All Urban Consumers. The maximum assessment rates are being increased by the prior year's increase in the CPI (3.437%).

MAXIMUM ASSESSMENT

In any given year, the amount of the assessment will not exceed the maximum amounts established in this Report, as adjusted by the CPI increase described above unless a special proceeding is conducted and affirmed according to law. For FY 2017-18, the property owners in Zone 5C approved an increase in the maximum assessment.

DURATION

Assessments will be levied in perpetuity, unless otherwise determined by the Council.

PART E

PROPERTY OWNER LIST & ASSESSMENT ROLL

A list of names and addresses of the owners of all parcels, and the description of each parcel within the City of Hercules's Landscaping and Lighting Assessment District No. 83-2 is shown on the last equalized Secured Property Tax Roll of the Contra Costa County Assessor, which by reference is hereby made a part of this Report.

This list is keyed to the Assessor's Parcel Numbers as shown on the Assessment Roll, which includes the proposed amount of assessments for FY 2017-18 apportioned to each lot or parcel. The Assessment Roll is on file in the Office of the City Clerk of the City of Hercules and is shown in this Report as Appendix B.

The total proposed assessment for FY 2017-18 is as follows:

Benefit	FY 2017-18
Zone	Amount
Zone 1	\$47,026.65
Zone 2	\$71,880.21
Zone 3 & 4	\$65,022.58
Zone 5A	\$76,861.83
Zone 5B	\$43,161.76
Zone 5C	\$12,891.38
Zone 6	\$21,509.12
Zone 7	\$68,073.75
Zone 8	\$165,272.56
Zone 9	\$70,671.71
Zone 10	\$754,245.22
