

## **STAFF REPORT TO THE CITY COUNCIL**

**DATE:** Regular Meeting of February 27, 2018  
**TO:** Members of the City Council  
**SUBMITTED BY:** Holly Smyth, AICP Planning Director  
Victor Carniglia, Municipal Resources Group  
**SUBJECT:** Continued Citywide Comprehensive Update to the Circulation Element of the City's General Plan

### **1. RECOMMENDATION**

- a. Request that staff make a follow up presentation of the updated Circulation Element;
- b. Discuss suggested updates
- c. Adopt a Resolution Approving the Circulation Element, as modified, with attachments.

### **DISCUSSION:**

The City Council held a public hearing on the Citywide Comprehensive Update to the Circulation Element at their February 13, 2018. During the Council's discussion, a number of clarifying questions and issues of concern were brought up by the Council which may warrant inclusion in the document, but consensus of the Council was not gathered at that time. To list and respond to all comments in an efficient manner, staff has updated the table labeled "Additional Questions and Answers relevant to Circulation Element (CE) Document" as items 31 to 51, and provided further clarification where needed in previously listed items. These new comments are captured in blue text. Staff's recommended changes continue to be shown in red bold text.

It is anticipated that the City Council's discussion at this meeting will result in a determination of which changes to incorporate. Additionally, Exhibit D to the Circulation Element Draft Resolution was updated to add all the red items from the updated table into the Final document so that all the changes to the Plan can be adopted at once based on Council consensus and approval that the draft Resolution is complete. Should the City Council take final action, the approved changes will be incorporated into the final document.

### **ATTACHMENTS:**

1. Draft Resolution adopting Circulation Element and Environmental
  - Exhibit A - 2018 Circulation Element
  - Exhibit B - Traffic-Related Appendices
  - Exhibit C - Initial Study and Mitigated Negative Declaration
  - Exhibit D - Updated Changes to be Incorporated into Circulation Element
2. Updated Additional Questions and Answers Relevant to Circulation Element
