Subject: Willow Ave project

Hello, as a long time home owner of Hercules, I have concern about the impact of this project to the already worsening local traffic congestion leading on the Hwy 4 and I-80 merge, and the negative impact it will bring to the popular preschool at Valley Bible Church. Many of my neighbors are concerned about how such a project will bring unwanted characters from out of the neighborhood. We would like to voice our opposition to this project and hopefully the city can bring along a better project that can truly benefit the Hercules residence. Thanks

best,

Leon
